*Received via email 3/20/2019*

The NAHC also recommends, but does not require that lead agencies include in their notification letters, information regarding any cultural resources assessment that has been completed on the area of potential affect (APE), such as:

1. The results of any record search that may have been conducted at an Information Center of the California Historical Resources Information System (CHRIS), including, but not limited to:
  - A listing of any and all known cultural resources have already been recorded on or adjacent to the APE, such as known archaeological sites;
  - Copies of any and all cultural resource records and study reports that may have been provided by the Information Center as part of the records search response;
  - Whether the records search indicates a low, moderate or high probability that unrecorded cultural resources are located in the APE; and
  - If a survey is recommended by the Information Center to determine whether previously unrecorded cultural resources are present.
2. The results of any archaeological inventory survey that was conducted, including:
  - Any report that may contain site forms, site significance, and suggested mitigation measures.

All information regarding site locations, Native American human remains, and associated funerary objects should be in a separate confidential addendum, and not be made available for public disclosure in accordance with Government Code Section 6254.10.
3. The result of the Sacred Lands File (SFL) check conducted through the Native American Heritage Commission. The request form can be found at <http://nahc.ca.gov/wp-content/uploads/2015/08/Local-Government-Tribal-Consultation-List-Request-Form-update.pdf>.
4. Any ethnographic studies conducted for any area including all or part of the APE; and
5. Any geotechnical reports regarding all or part of the APE.

Lead agencies should be aware that records maintained by the NAHC and CHRIS is not exhaustive, and a negative response to these searches does not preclude the existence of a tribal cultural resource. A tribe may be the only source of information regarding the existence of a tribal cultural resource.

This information will aid tribes in determining whether to request formal consultation. In the event, that they do, having the information beforehand will help to facilitate the consultation process.

If you receive notification of change of addresses and phone numbers from tribes, please notify the NAHC. With your assistance, we can assure that our consultation list remains current.

If you have any questions, please contact me at my email address: [steven.quinn@nahc.ca.gov](mailto:steven.quinn@nahc.ca.gov).

Sincerely,

Steven Quinn  
Associate Governmental Program Analyst

Subject: AB 52 Notification for the **Duarte Station Specific Plan Project**  
City of Duarte, County of Los Angeles, California 91010

Dear Mr. Salas:

As of July 15, 2015, Public Resources Sections (PRC) 21080.1, 21080.3.1 and 21080.3.2 requires public agencies to consult with California Native American tribes that have submitted a request to be notified of projects in their traditional/cultural use areas for the purpose of mitigating impacts to tribal cultural resources pursuant to California Environmental Quality (CEQA). You are being contacted because the City is in receipt of your formal AB 52 Notification Request: concerning projects located within the tribes traditional and/or cultural use area.

**This letter serves as the Lead Agency's formal notification, pursuant to PRC 21080.1(d), that application for the Project is on-going.** The City of Duarte is considering the adoption and long-term implementation of an amendment to the Duarte Station Specific Plan. The proposed Specific Plan amendment establishes the general type, parameters, and character of the development and allows for a mix of residential, office and research and development, hospitality uses, supporting commercial uses (such as retail and services), and urban open spaces. Redevelopment of the project site is estimated to be complete by the end of the year 2025, which will be the time horizon used by the Draft Subsequent Environmental Impact Report (SEIR) to assess potential environmental impacts of the project.

The Project occupies Sectioned 31, Township 1 North, and Range 10 West as depicted on USGS Azusa and Baldwin Park California 7.5 Minute Quadrangles (see Enclosure). The 19.09-acre project site is bounded by Evergreen Street and the Foothill Freeway (Interstate 210) to the north, Highland Avenue to the east, a single-family residential neighborhood to the west, and to the south, the Los Angeles County Metropolitan Transportation Authority (Metro) railroad right-of-way, the Duarte/City of Hope Gold Line Station, and Duarte Road (APN: 8528-001-025 and -906).

Currently the Project site consists of three parcels currently developed with industrial uses totaling approximately 313,955 square feet, and a fourth parcel developed as a surface parking lot for the Metro Gold Line station. No new construction is proposed as a result of the Specific Plan amendment.

If you would like the City of Duarte (Lead Agency) to consult with you regarding this project, please notify the City of Duarte Community Development Department, Planning Division in writing, within thirty (30) days of this notification. Thank you for your assistance in this matter.

Sincerely,

A handwritten signature in black ink, appearing to be 'JG' with a stylized flourish.
